

ABOUT TRUST

Shree Chanakya Education Society's Indira Group of Institutes (IGI) in Pune was established in 1994 by Dr. Tarita Shankar with the vision to foster corporate and entrepreneurial abilities in youth through robust education. IGI offers a wide range of disciplines, including Management, IT, Pharmacy, Commerce, Science, Engineering, and Mass Communication, spanning from Kindergarten to Doctorate levels. With a strong focus on human excellence and social values, IGI aims to develop students as a leader who can impact the Indian and global economy. The institute benefits from collaborations with the Indian industry, inspiring students with insights from renowned industrialists.

ABOUT ICEM

Indira College of Engineering and Management (ICEM), Pune, established in 2007, an autonomous institute affiliated with Savitribai Phule Pune University. ICEM offers undergraduate programs in Artificial Intelligence and Data Science, Computer Engineering, Electronics and Telecommunication Engineering, Information Technology, Mechanical Engineering, and postgraduate programs in specialized fields. ICEM combines theoretical learning with practical experiences, including industry visits and projects, ensuring students are industry-ready. With over 1500 students, the college fosters strong industry connections and offers scholar clubs for academic and personal development. Its NAAC accreditation and partnerships with institutions like the University of Nottingham highlight its commitment to excellence in engineering education.

PROGRAMME OVERVIEW

The Technical Seminar is a vital course that connects classroom learning with independent student research. Since SPPU has updated the Third Year syllabus for all computing branches, this online program helps all teachers, guides, and evaluators follow the exact same rules, timelines, and grading methods. Organized entirely in Online Mode, this Faculty Orientation Program (FOP) provides a unified digital platform to bring departmental guides, stream coordinators, and assessment panel members from all allied Computer branches into perfect alignment. The program focuses on standardizing the delivery, tracking mechanisms, and final evaluation across various departments, ensuring a rigorous, synchronized, and frictionless execution of the syllabus throughout the semester.

OBJECTIVES OF THE FDP

- To familiarize faculty with the NEP 2020 Cyber Security Honours curriculum..
- To introduce Industry 5.0 technologies and current research trends.
- To enhance teaching, research, and industry-oriented skills.
- To provide hands-on exposure to emerging cyber security tools and techniques.
- To strengthen academia–industry collaboration in cyber security.
- To encourage innovative teaching and research practices.
